

INTERFUND
Société d'Investissement à Capital Variable
28, Boulevard de Kockelscheuer
L - 1821 LUXEMBOURG
R.C.S. Luxembourg B 8074
(the "**Company**")

NOTICE TO THE SHAREHOLDERS

Notice is hereby given to the shareholders of the Sub-fund that the board of directors of the Management Company (the "**Board**") has decided the following changes to be effective as from June 17, 2024 (the "**Effective Date**").

1. Interfund Equity USA Advantage (the "Sub-fund")

As from the Effective Date, the Board has decided to amend the investment policy of the Sub-fund and to change its SFDR categorisation from Article 6 to and ESG Promotion Strategy sub-fund, categorised under Article 8 in accordance with Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector, as amended ("**SFDR**"), and as further described in the Prospectus.

As from the Effective Date, the investment policy and objective of the Sub-fund will be changed as detailed below (main differences are highlighted in bold). The Sub-fund will continue to seek to achieve long-term capital growth by investing primarily in equity transferable securities in the United States but the equity securities will be mainly issued by companies whose business model is better positioned to benefit from the increasing role of the "Millennial Generation".

The reason for this change is to provide investors with a more attractive investment opportunity better tailored to meet the needs of clients belonging to a younger cohort, and who show a preference for socially and environmentally sustainable strategies, as well as of clients who have an interest for Millennials-related themes.

In line with the investment policy change, the Sub-fund will be renamed "Interfund Millennials Equity USA".

As from the Effective Date, the current benchmark of the Sub-fund "MSCI USA Growth", Price Return in USD and converted in EUR will be replaced by the benchmark "MSCI USA Growth 4% Issuer Capped", Price Return in USD and converted in EUR.

The change of benchmark does not have any impact on the way the performance fee is calculated, which remains unchanged and applicable as detailed in the Prospectus (i.e., 20% of the positive difference between the performance of the Sub-Fund/Share Class and the benchmark over the calendar year). As from the Effective Date, the performance fee will be calculated by reference to the benchmark "*MSCI USA Growth 4% Issuer Capped*", Price Return in USD and converted in EUR. Furthermore, as foreseen in the Prospectus, due to the change of investment manager (as described below), the performance fee will be crystallized at the date of termination of the investment management agreement.

The management of the Sub-fund will be internalized by the management company, FIDEURAM ASSET MANAGEMENT (IRELAND) dac, replacing the current investment manager and sub-investment manager Morgan Stanley Investment Management Ltd and Morgan Stanley Investment Management Inc.

The removal of the investment manager has been deemed to benefit the shareholders as it leverages FIDEURAM ASSET MANAGEMENT (IRELAND) dac's expertise and knowledge in the area of the "Millennials" investment strategies, while also contributing to a rationalization of the product range.

As further disclosed in the Prospectus, the change of Investment Manager will trigger a crystallization of the performance fee due to the outgoing Investment Manager at the date of termination of the investment management agreement, which will not trigger a reset of the five (5) years claw back period.

For the avoidance of doubt, the change of the investment manager does not have any impact on the management fee, which remains unchanged.

Five (5) business days prior to the Effective Date, the portfolio will be rebalanced by the Investment Manager to align it to the new investment policy and SFDR categorisation.

Current investment policy	New investment policy
15. INTERFUND EQUITY USA ADVANTAGE, expressed in EURO, seeks long-term capital appreciation, measured in Euro, by investing primarily in securities issued by US companies and on an ancillary basis in securities issued by companies that are not from the US. An issuer may be considered to be from a particular country (including the US) or geographic region if (i) its principal securities trading market is in that country or geographic region; (ii) alone or on a consolidated basis it derives 50% or more of its annual revenue from goods produced, sales made or services performed in that country or geographic region; or (iii) it is organised under the laws of, or has a principal office in, that country or geographic region. By applying these tests, it is possible that a particular issuer could be deemed to be from more than one country or geographic region. Under normal market conditions, the sub-fund's investment objective will be pursued by investing primarily in equity securities of established large-capitalisation companies. The investment process emphasises a bottom-up stock selection process, seeking attractive investments on an individual company basis. The selection of securities for investment is driven by a search for large-capitalisation franchises with strong name recognition and sustainable competitive advantages, typically favouring companies with rising returns on invested capital, above average business visibility, strong current period free cash flow generation and attractive risk/reward. Fundamental research drives the investment process. Company developments, including business strategy and financial results, are studied on an ongoing basis. Portfolio holdings are generally considered for divestment when it is determined that the holding no longer satisfies the sub-fund's investment criteria. The sub-fund may also be invested, on an ancillary basis, in equities of companies not meeting the above requirements, debt securities convertible into common	15. INTERFUND MILLENNIALS EQUITY USA, expressed in EURO, aims to achieve long-term capital growth by investing primarily in equity transferable securities listed in the United States, as well as American depository receipts ("ADRs"). The equity securities will be mainly issued by companies whose business model is better positioned to benefit from the increasing role of the Millennial Generation in the economy and in the society in general, at a worldwide level. The Millennial Generation comprises people born between 1980 and 1999. This generation is also known as Y Generation or Internet Generation. The main sectors where the Millennials theme has impact are inter alia technology; financials; clothing & apparel; housing & households; travel & mobility; education & employment; food, restaurant & consumer staples; health & fitness. The sub-fund may invest without limitation in securities denominated in currencies other than the Reference Currency. The currency exposure of the sub-fund is flexibly managed. The sub-fund can invest: - up to 10% of its net assets in depository receipts ADRs, European depository receipts ("EDRs") and global depository receipts ("GDRs"). ADR, GDR and EDR and related underlyings will at any time comply with the eligibility criteria stated in the UCI Law, as amended from time to time, - up to 10% of its net assets in units and/or shares of any UCITS and/or other undertakings for collective investment, including the Exchange Traded Funds ("ETF").

shares, preferred shares, warrants on securities and other equity linked securities. Moreover, the sub-fund may use financial derivative instruments for the purpose of risk hedging and for investment purposes. The benchmark of the sub-fund consists of the index "MSCI USA Growth", Price Return in USD and converted in EUR. The sub-fund is actively managed and the degree of freedom allowed within the management of the sub-fund is significant. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. It is expected that, in normal circumstances, a significant part of the investments of the sub-fund will be components of the benchmark, however there is discretion to invest in other securities not included in the benchmark. <i>Risk transparency:</i> • Global Exposure Determination Methodology: commitment approach <i>Securities lending:</i> • Maximum portion of assets that can be subject to securities lending: 50%. • Expected portion of assets that will be subject to securities lending: 20%	The sub-fund may use financial derivative instruments for the purpose of risk hedging and also for investment purposes. Financial derivative instruments may include exchange traded and over-the-counter derivatives such as options, futures, spot and forwards contracts and swaps. The sub-fund will invest a portion of its assets in unfunded total return swaps ("TRS") on indices and single stocks on a temporary basis based on market conditions. Such indices may have as underlying asset (without being limited to) equity, ETF, forward foreign exchange, equity futures, index futures and options on financial derivative instruments. In particular, TRS may be used to gain exposure to equity and for efficient management of the portfolio. The sub-fund may hold money-market instruments and money-market funds up to 20% of its net assets. The sub-fund will not invest more than 20% of its net assets in ancillary liquid assets, being cash and bank deposits at sight (such as cash held in current accounts), in normal market conditions. Under exceptionally unfavourable market conditions and on a temporary basis, this limit may be breached, if justified in the interest of the investors. Liquid assets used to back-up derivatives exposure are not considered as ancillary liquid assets. The benchmark of the sub-fund consists of the index MSCI USA Growth 4% issuer capped Price Return in USD converted in EURO. The benchmark is not designed to ensure the promotion of, among other characteristics, environmental or social characteristics, or a combination of those characteristics. For more details on the benchmark's methodology, please refer to www.msci.com. The sub-fund is actively managed and the degree of freedom allowed within the management of the sub-fund is significant. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. It is expected that, in normal circumstances, a significant part of the investments of the sub-fund will be components of the benchmark, however there is a discretion to invest in other securities not included in the benchmark. The sub-fund has been categorised as an ESG Promotion Strategy sub-fund, as promoting, among other characteristics, environmental and social characteristics, which are a binding component for the assets selection and investment decision-making process, and the companies in which the sub-fund shall invest in need to

Current risk profile of the typical investor	New risk profile of the typical investor
This sub-fund is suitable for investors who search long-term investments. The investor must be able to accept a certain volatility and the possibility of losing a part of the invested amount.	The sub-fund is suitable for investors who search long-term investments, with an investment strategy promoting environmental and social characteristics, provided that they follow good governance practices, in compliance with Article 8 of the SFDR. The investor must be able to accept a certain volatility and the possibility of losing part of the invested amount.

2. Interfund Emerging Market Local Currency Bond

As from the Effective Date, the investment policy of the sub-fund Interfund Emerging Market Local Currency Bond will be amended in order to reflect the extent to which the sub-fund may invest in unfunded or funded total return swaps ("**TRS**") where the underlying is indices or transferable securities. The increase in the portion of assets subjects to TRS will afford more flexibility and efficiency in capturing exposure to a wider range of emerging market instruments.

The investment policy will disclose the following portion:

Total Return Swap or other derivative instruments with the same characteristics:

- Maximum portion of assets that can be subject to TRS: 25%.
- Expected portion of assets that will be subject to TRS: 25 %.

Unitholders who disagree with the abovementioned changes may request the redemption of their units free of any redemption charges during the period beginning on May 10, 2024 until June 14, 2024.

The updated Prospectus and related documents reflecting these changes will be available at the registered offices of the Management Company, FIDEURAM ASSET MANAGEMENT (IRELAND) dac, the Depositary Bank, STATE STREET BANK INTERNATIONAL GmbH, Luxembourg branch, the Domiciliation Agent INTESA SANPAOLO WEALTH MANAGEMENT and the authorized Distributors.

All capitalised terms used herein and not otherwise defined shall have the meaning ascribed to such terms in the Prospectus.

Luxembourg, 9th May 2024
